## COMPANY PROFILE

### *Executive Summary:*

In order to compete at this challenging market, throughout our long time experience in Logistic/Supply in Afghanistan, we have established and maintained long-term relationships with subcontractors and suppliers in multiple locations throughout the country, guaranteeing the quickest possible delivery time to market. We have the ability to manage projects from conception to completion in a close team environment with real estate professionals, consultants, users and owners. We can provide a full spectrum of services from initial consulting to single-source design/build.

### *About the Company:*

RSL S owner-centric approach and strategic delivery process allow us to incorporate the customer's specific business objectives into each project, ensuring customized, consistently dependable solutions. We provide a single point of fiscal and administrative responsibility, making it possible for

customers to focus on project definition rather than on architect and subcontractor issues. This approach delivers efficiency and flexibility, minimizing time delays and eliminating lost revenues. Our customers benefit from a keen combination of logistics – and supply services, including a clear, swift, and flexible execution achieved by simplifying the process chain and minimizing the number of involved parties.

### *Vision:*

RSL S envisions a stable, peaceful and democratic society where everybody is inspired to bring positive changes to the community.

### *Mission Statement:*

RSL S's mission is to facilitate the process of sustainable social development by mobilizing and building capacities through civic education, trainings, seminars, advocacy, and technical assistance. To share research,

experience, and learning outcomes and use this to actively influence for positive changes at all levels.

### *Program Focus:*

All projects shall be planned and implanted according to the policies of the company. In general, priority and preference will be given to labor intensive projects. In addition, awareness rising on matters such as: gender issues, basic health, environment, etc. It will be combined with all activities and implemented through the group work structure.

RSLs in the geographical areas of its activities will also undertake emergency relief operations. These operations will be undertaken only under exceptional circumstances where activities with the nature of emergency relief are absolutely necessary. In general, the company can get involved in operations with a nature of one-time assistance and therefore will avoid relatively long-term emergency operations.

### *RSLs provides customer-oriented and cost-effective services:*

We deliver: the *right* product, at the *right* time, at the *right* price, at the *right* place, in the *right* quantity, and in the *right* quality.

### *To meet these goals, we will:*

- Impress our clients by our responsiveness and communications and clear and honest dealings.
- We will stay close to our clients.
- Encourage team spirit, and an open management style and a process of performance measurement and continuous improvement.
- Train and retrain our staff to make full use of technology to enhance our services.

### *Our People:*

At RSLs we all share the following attributes:

- We are passionate about facilitating trade to, from and within Afghanistan.
- We have a thorough understanding of logistic practices in Afghanistan.

- We understand our limitations and are realistic and humble to accept that no single service provider can be “everything for everyone”, hence our philosophy of having a number of strategic partnerships with various industry specialists – a concept which over time has proven to be extremely successful.
- We believe in partnerships with our clients, as their success ultimately determines our success. As a result, we place high value on professionalism, trust, integrity and building long term relationships.

Headed by professionals with collectively more than seven years of experience in logistics and supply business as well as a thorough knowledge and understanding of the intricacies and unique nature of doing business in Afghanistan, our management team is well equipped to

lead this company to realize its vision – to become a leader in the field of specialized logistics for Afghanistan.
